

(有样机 目前只接受定制生产)
(Prototypes are only available for
customized production at present)

●● 市场唯一特性 (原声设计/市电/电池供电/专利)

Market Unique Features (Acoustic Design/Mains/Battery Powered/Patent)

- 市场创新特性 (原声设计， 市场唯一一款采用市电/电池供电的高端功放40V以上， 电量表显示)
- 原声设计特性 (高中低音无论乐器和人声清晰明亮； 电吉他可弹出民谣的明亮声音)

Innovative features in the market (acoustic design, the only high-end power amplifier on the market with mains/battery power supply above 40 V, Power meter display)(Graph) acoustic design features (high, middle and low sounds are clear and bright regardless of instruments and voices; The electric guitar plays the bright sound of a folk song).

- 不断电使用特性 (交流供电使用的同时在给电池充电;当市电关断时电池恢复供电不影响使用)
- 双通道专业设计 (独立的多功能双路调节效果电路， 参考面板和功能说明)

Uninterruptible power use characteristics (AC power supply is used while charging the battery;(Graph) dual-channel professional design (independent multi-functional dual-channel regulation effect circuit, refer to panel and function description)

- 专用效果设计 (原声和8种专用数字效果电路切换使，超越数字音质效果，让使用者心声陶醉依恋)
- 专业输出控制设计 (专业演唱输出控制接口让你的演奏原声输出到大型设备， 参考面板和功能说明)

- 高保真蓝牙设计 (普通蓝牙在使用时都会发出明显嘟嘟的干扰声，而高品质蓝牙几乎没有听不到)
- Special effect design (original sound and 8 kinds of special digital effect circuits are switched to surpass the digital sound quality effect.(Graph) professional output control design (professional singing output control interface allows you to play the original sound output to large equipment. Refer to the panel and function description)(Graph) Hi-Fi Bluetooth design (ordinary Bluetooth will emit obvious interference sound when used, while high-quality Bluetooth can hardly be heard)

创新设计的高端电吉他配合我们原声音箱弹唱时会让你爱不施手，配上音箱电池可以使用6-8小时的纯净音质，保你会感觉到电池不够用！！！
The innovative design of high-end electric guitar with our acoustic speakers will make you love to sing, with the speaker battery can use 6-8 hours of pure sound quality, you will feel that the battery is not enough! ! !

电吉他由于专利还未确认，暂不对外公布，但可以保证的是外观是市场唯一的且带有世人追拜的 FENDER 风味美质感！！！！！！
As the patent of electric guitar has not been confirmed, it will not be released to the public for the time being, but it can be guaranteed

that the appearance is the only one in the market with the FENDER flavor and texture that the world worships!

面板、背板功能口说明
Description of function ports of panel and backplane

电池版
Battery version
(颜色、皮革、供电可定制)
(Color, leather, power supply can be customized)

注意：使用原声音时将通道1和2的切换效果B关闭即可，黄色指示灯灭。

Note: When using the original sound, turn off the switching effect B of channel 1 and 2, and the yellow indicator light is off.

注意：电源开关拨到ON时给设备供电的同时也在对内部电池充电，不影响使用，拔掉电源线时同时电池恢复供电，有利于交流突然断电时设备保护不间断使用，但平时使用电池时建议拨到BATTERY电池档使用。

Note: When the power switch is unplugged to ON, it supplies the mains supply to the equipment and charges the internal battery at the same time, which does not affect the use. When the power cord is unplugged, the battery restores the power supply at the same time, which is conducive to the uninterrupted use of the equipment in case of sudden AC power failure. However, it is recommended to unplug the battery to BATTERY when using the battery at ordinary times.
